

# ISO 37001 Anti-Bribery Management System (ABMS)

Service information sheet. ISO Management Systems. Information checked 11 October 2026.

## In brief

ISO 37001 is the international standard for anti-bribery management systems (ABMS). It helps organisations prevent, detect and respond to bribery through policy, risk assessment, due diligence and controls. It is certifiable and listed under Singapore's EDGE Grant.

## What it is

ISO 37001 sets requirements for an anti-bribery management system to prevent, detect and respond to bribery, including due diligence on business associates.

## Who it is for

Organisations in tenders, regulated sectors, cross-border trade or public sector supply chains.

## How ICFC helps

| Service    | What we offer                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Audit      | Third-party audits: Third-party certification audits for ISO 37001 are delivered by our auditors on behalf of accredited certification bodies. The certificate is issued by the certification body, not by ICFC. Second-party audits: Supplier and partner audits against ISO 37001 on behalf of your organisation, with clear findings you can act on. Internal audits: First-party internal audits of your anti-bribery management by experienced auditors, combinable with other standards in one integrated audit.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Consulting | Grant-supported (EDGE): ICFC's consultancy is led by consultants certified to SS 680:2021, which Enterprise Singapore requires for consultancy support under EDGE Standards activities. The certification is held by our individual consultants, not by ICFC as a company. Our proposal names the certified consultant who will lead your project and includes the SS 680 certification details, quotation and scope that EDGE asks for. You apply on the Business Grants Portal before any work starts or any payment is made. Vendors cannot apply, pay or claim for you, the consultant named in the Letter of Offer must bill the claim invoices, and vendors cannot be changed after approval. Support is subject to Enterprise Singapore's assessment and approval. For our SS 680 certified consultants' roles, certificate numbers, issuing body and expiry dates, or a link to the issuing body's register, please email us through the contact form. Non-grant: A fixed-scope engagement: gap assessment, documentation, implementation coaching, internal audit and management review, and support through the formal audit or assessment. How we work: Practical, proportionate systems that your staff can run after we leave. |
| Training   | Classroom: Public and in-house classroom courses on ISO 37001: awareness, implementation and internal auditor levels. Online LMS: Self-paced and live-online courses on the ICFC Digital LMS, with progress tracking and certificates of completion. Funding: Funding depends on each course's approval status, shown on the course page in the LMS.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Funding

**Listed under EDGE Standards.** Enterprise Singapore lists this standard under the EDGE Grant. Check the activity page on the Enterprise Singapore website for the current support level before you apply.

## Impartiality

Impartiality comes first. Every engagement begins with a conflict-of-interest check. We keep consulting and auditing roles separate, and our auditors never audit, on behalf of a certification body, an organisation that ICFC has consulted on the same scope within the period set by that body.

## Frequently asked questions

**Q.** Does ISO 37001 guarantee no bribery will occur?

**A.** No standard can. It shows that reasonable and proportionate measures are in place.

**Q.** Is ISO 37001 on EDGE?

**A.** Enterprise Singapore lists anti-bribery management systems under EDGE General Standards. Check the activity page for the support level.

**Q.** What is due diligence in ISO 37001?

**A.** Proportionate checks on higher-risk transactions, projects and business associates.

**Q.** Who leads the system internally?

**A.** An anti-bribery compliance function with direct access to top management and the governing body.
