

Sustainability reporting assessment (training only)

Service information sheet. Sustainability and Supply Chain. Information checked 11 October 2026.

In brief

ICFC's sustainability reporting assessment training teaches teams how to assess and prepare sustainability and climate-related disclosures, from materiality to data quality. It is offered as training only, in classroom and online formats through the ICFC Digital LMS.

What it is

Training that builds the skills to assess and prepare sustainability and climate-related disclosures, including materiality, data collection and the reporting standards adopted in Singapore.

Who it is for

Finance, sustainability, compliance and operations staff preparing or reviewing sustainability reports.

Our role

Training only. We do not provide assurance or consultancy for sustainability reports.

How ICFC helps

Service	What we offer
Audit	Not offered: This service is training only.
Consulting	Not offered: This service is training only.
Training	Classroom: Public and in-house classroom courses on Sustainability Reporting Assessment: awareness, implementation and internal auditor levels. Online LMS: Self-paced and live-online courses on the ICFC Digital LMS, with progress tracking and certificates of completion. Funding: Funding depends on each course's approval status, shown on the course page in the LMS.

Funding

Training funding varies. Funding depends on the approval status of each course, shown on the course page in the ICFC Digital LMS.

Impartiality

Impartiality comes first. Every engagement begins with a conflict-of-interest check. We keep consulting and auditing roles separate, and our auditors never audit, on behalf of a certification body, an organisation that ICFC has consulted on the same scope within the period set by that body.

Frequently asked questions
