

TISAX label (training and consultation)

Service information sheet. Cybersecurity, IT and Data Protection. Information checked 11 October 2026.

In brief

TISAX is the automotive industry's information security assessment scheme, run by the ENX Association. Assessments are carried out only by ENX-approved audit providers. ICFC offers TISAX training and consultation to help you scope the assessment, close gaps and prepare evidence.

What it is

TISAX is the information security assessment and exchange mechanism used in the automotive industry. Assessments are performed by ENX-approved audit providers and results are shared through the ENX platform as labels.

Who it is for

Automotive suppliers and service providers asked by vehicle makers or tier-one suppliers to share a TISAX label.

Our role

ICFC provides training and consultation for TISAX only. We do not perform TISAX assessments.

How ICFC helps

Service	What we offer
Audit	Not offered: Assessments are performed only by audit providers approved by the scheme owner. ICFC supports you through training and consultation.
Consulting	Funding: We explain which scheme, if any, applies and what it requires before you commit. Non-grant: A fixed-scope engagement: gap assessment, documentation, implementation coaching, internal audit and management review, and support through the formal audit or assessment. How we work: Practical, proportionate systems that your staff can run after we leave.
Training	Classroom: Public and in-house classroom courses on TISAX: awareness, implementation and internal auditor levels. Online LMS: Self-paced and live-online courses on the ICFC Digital LMS, with progress tracking and certificates of completion. Funding: Funding depends on each course's approval status, shown on the course page in the LMS.

Funding

Not on the EDGE Standards list. We did not find this standard on the EDGE Standards list when we checked. Ask us about non-grant options or other schemes that may apply.

Impartiality

Impartiality comes first. Every engagement begins with a conflict-of-interest check. We keep consulting and auditing roles separate, and our auditors never audit, on behalf of a certification body, an organisation that ICFC has consulted on the same scope within the period set by that body.

Frequently asked questions

Q. Does ICFC issue TISAX labels?

A. No. Labels result from assessments by ENX-approved audit providers. We help you prepare.

Q. Which assessment level do we need?

A. Your customer's request and the information you handle decide the level. We help you interpret it.

Q. Is ISO/IEC 27001 a good base for TISAX?

A. Yes. TISAX builds on information security controls similar to ISO/IEC 27001, with automotive-specific additions.

Q. Can training be delivered online?

A. Yes, through the ICFC Digital LMS or as in-house sessions.
